

CONCERT COMING UP—The members of St. Agnes Marching and Maneuvering Bands, pictured above, put the finishing touches on the music of their mid-winter Concert to be presented next Sunday and Monday evenings at the Arlington High school auditorium. People might wonder what a marching band does in the wintertime, but there is no problem for the members of St. Agnes Senior and Junior bands. Ever since last September, all of them numbering more than one hundred

twenty players have been devoting the major part of their spare time to a program of music for the annual concert. Band director, Dominic Amoroso of Arlington, has selected a well-rounded program of music. Each student is required to master every number before he is given a uniform and a place on the concert stage. Mr. Amoroso believes in "making them reach" in order to achieve a standard of excellence.

Rt. 3 Report Is Filed

The final recommendations of the firm of consulting engineers for the location of Rt. 3 were filed with Public Works Commissioner DiNatale on Tuesday this week.

DiNatale has called a meeting with all the state Senators and Representatives from the areas affected on Feb. 12. It is understood that the recommendations of consulting engineers will be revealed at that time.

The state engaged the firm of Hayden, Harding and Buchanan to study and recommend one of five routes.

These five included: a) the oldest, proposed in 1942, to travel on the Medford side of the Mystic lakes; b) to dissect the Winchester Country

Club golf course and cross between Upper and Lower Mystic lakes; c) to follow, roughly, Ridge st.; d) to follow the B&M railroad bed through Arlington Center; e) to cross the Arlington owned Great Meadows in Lexington and join Rt. 2 at the Arlington-Lexington line.

The recommendations will be passed on to the State D.P.W.'s engineers who will study them for costs of construction and land damages. This study is expected to take 90 days.

Following this, public hearings will be scheduled.

Fabulously Low!

Old Man Winter has been kind to the Town pocketbook, so far, anyway. Snow removal cost for the first three weeks in January have been \$14,000, said the Town Manager this week.

"It has been an unusual winter," Monahan declared, "and this amount of money is fabulously low."

Taxpayers say, amen.

Battles Loom In Annual Election For Selectmen, Schools, Assessor

Edward Higgins Dies After Fall

Edward W. Higgins of 78 Scituate st. and long time resident died suddenly on Jan. 29. He was owner of the Frost & Higgins Co. here.

A fall on the ice brought about the death.

He was 68 years of age, a graduate of the Cotting High school, Arlington, in 1910, the University of Massachusetts in 1914.

He was one of the founders and past president of the National Arborist Ass'n, National Shade-Tree Conference, Massachusetts Arborist Ass'n, member of the Massachusetts Horticultural Society, the Horticultural Club, member Russell Lodge A. F. & A.M. and the First Baptist church here.

He was a former Park Commissioner and served on the Finance Committee and was a member of the Arlington Chamber of Commerce.

(Continued on Page 4)

Exciting races loom for offices in the coming Town elections in March.

This was verified Monday at 5 p.m. when most of previously announced candidates filed their nomination papers at the Town Clerk's offices.

The only offices to go unchallenged are the posts held by Ann Mahon, Town Clerk, and Francis A. Coughlin, Town Treasurer.

For Board of Selectmen the two incumbents — Joseph P. Greeley and Thomas R. Rawson — are being challenged by Horace H. Homer and ex-selectman Franklin W. Hurd. Although this is Homer's first race for office, other than Town Meeting member, he is a recognized authority on Town politics.

Hurd is expected to make every effort possible to regain his former post which he vacated last year to run for Town Clerk.

A surprise entry into the highly publicized Assessor race is that of Arthur G. Baker of 291 Washington st. He has been in the real estate business for 10 years and is the nephew of formerly active realtor here, Harry Baker.

Others seeking the post, vacated by Leonard Wood, are John B. Byrne Jr., present chairman of the Planning Board; John D. Craig, for his second attempt; Wal-

lace J. Flynn, son of Police Captain James Flynn; Robert B. Walsh, who opposed Assessor Cooledge last year.

All are expected to put up determined fights.

For School Committee, all three incumbents are re-running. They are Dr. Richard Baker, Arthur F. Coughlin Jr. and Bernard A. Forest.

They are faced by three candidates. Two are professional educators, the other a long-time and well-known resident.

These are Mary K. Carter, who received her doctorate in education last year; Walter E. Russell, a former teacher here at the High school and now an assistant principal in Tewksbury; and Cesare J. Fiorenza, a former Town Meeting member.

The post of incumbent Joseph S. Vahey who will re-run is sought by James A. Barry Jr. of 20 Sutherland rd. and Aloysius H. Wiseman, 12 Lorne rd.

Roadway To Club Would Cut Tennis

Is tennis dead in Arlington? This is hardly a snowtime topic, but Arlington officials pondered this question this week while studying the proposed roadway in front of the Boys club.

The new road will cause the elimination of one of the four tennis courts presently located near the Boys club. Selectmen wondered if this will make much of a difference to Arlington's tennis-playing population, if any.

While tennis enjoys great popularity in several surrounding suburban communities, it was pointed out by the Town Manager that attempts by the Park Department to encourage this sport by young people have been unsuccessful.

Weather Hurts Mothers March

"Due to inclement weather (and I do mean inclement), Arlington Mothers in some cases were not able to get out to collect," Robert Mahoney local Dimes chairman said this week.

The March, held on Thursday evening, Jan. 28, and again on Sunday afternoon, Jan. 31, raised in excess of \$3,000.00. This is approximately a 15-18% decline and is due, primarily, to the bad weather.

The Mothers' March Co-Chairmen, Mrs. Charles Nugent and Mrs. William Richardson, urge everyone to return their dime card.

Arlington again will raise approximately the same amount as it did last year, it is predicted. Last year's total was \$7,400.00.

"The Committee wishes to thank all the townspeople for their help and their support and especially to thank the Mothers who went out in the atrocious weather and did such a fine job," a spokesman said.

PHEWW!—Town Clerk Ann Mahon had two good reasons for brow mopping Monday. Deadline for filing nomination papers for March town elections was 5 p.m. and last minute rush was heavy. At one minute past the hour it was all over, and much to her relief, no one had filed for Town Clerk, leaving her unopposed for the office she took over last year in a runaway election.

Tax Burden Is \$2,471,000

(Special to the Advocate) **NEW YORK**—Were there no national debt at all in the United States and, therefore, no interest to pay on it, residents of Arlington would be relieved of a tax burden that is now close to \$2,471,000 a year.

That is approximately the carrying charges they have to meet, based on national averages, as their proportionate share of just the interest on the debt.

The amount derives from Government reports, which reveal that interest charges reached an annual rate of \$9.1 billion by last September. That was \$1 billion more than has been expected when the previous budget was drawn up.

Calculations by the Tax Foundation, a non-profit organization, show that it is equivalent to \$51.48, on the average, for every man, woman and child in the land. That is \$5.58 per person more than had been foreseen.

Now, according to the President in his recent messages to Congress, the interest costs are rising again. He expects them to be \$9.5 billion in the next fiscal year. This will mean an additional \$2.23 per person, bringing the load to \$53.71 per capita.

To indicate how enormous a sum this \$9.5 billion is, the tax foundation points out that it is more than all state and local governments spent for streets and highways (7.8 billion) in 1957 and that it is almost two-thirds of what they spent for all educational purposes (14.1 billion) that year.

If the \$4.2 billion surplus envisioned by the President for fiscal 1961 should be attained and if it were applied solely to reduction of the debt, a cut of nearly 1.5 percent in the annual interest charges locally would follow.

Arlington's share of the debt itself, based on the national average of \$1,650 per person, comes to a monumental \$79,200,000. Under the proposed cutback of \$4.2 billion, the local burden would drop by \$1,188,000.

Discussing such huge obligations, Dr. Robert W. French, president of the Tax Foundation, states: "If democratic government is to survive in this country, citizens must somehow gain control of government spending and taxes, instead of letting them dominate their business and personal lives."

INTER-FAITH SERVICE

Northeastern University's Women's Cabinet will assume the responsibilities of the pulpit for the first time at the inter-faith Bacon Memorial Chapel service on Feb. 10 at 8:20 a.m.

A coffee hour will precede the service.

Miss Katherine A. Crowley, 11 Varnum street, Arlington, secretary to the dean of Northeastern's Lincoln Institute, will lead the responsive reading. Among those participating in the choir is Katherine Crowley of Arlington.

(*Author's Name Below)

Pain is an indication of sickness. Persistent recurring pain is nature's warning signal that something must be done soon to correct the condition or serious danger may result.

No one but a physician has the knowledge to determine if a pain is the result of a minor or serious condition. Pain is just one of many other symptoms to be studied if a cure is to result. Do not wait till pain grows sharp and sickness rages. Consult your physician immediately to prevent other pain-filled days and possible serious sickness.

28 Locals Enlisted In Army In 1959

During the calendar year of 1959, twenty-eight young men from Arlington voluntarily enlisted in the regular army.

Sgt. Fulton attributes the sharp rise in enlistments from Arlington to the "satisfied enlistee" who in effect becomes another recruiter for the army.

"The new recruit returns home on leave to tell his buddies about army life and the valuable technical training he has received. The Army is able to satisfy these men through its guaranteed programs, the graduate specialist program and vocational training system," local Army recruiter said.

Artist's Conception Of New Boys' Club

Nearly 300 community leaders are expected to gather at the Town Hall next Tuesday, Feb. 9 at 7:00 p.m., to attend a sponsors dinner for the Arlington Boys club building fund, Arthur D. Saul Jr., campaign chairman, reported this week. The session will inaugurate the full scale activity of the \$200,000 effort, one of the largest fund raising programs of its kind ever undertaken in Arlington.

"Successful attainment of the goal through public subscriptions will assure receipt of a grant of \$300,000 from the Charles Hayden Foundation and permit construction on the Spy Pond site of a completely new Boys club at an estimated cost of \$500,000," Saul said.

All segments of business and industry, civic, social, fraternal and religious organizations and all residents are being asked to take part in financing the new construction and the ultimate broadening of the services and programs of the Boys club which now are carried on in the existing 85-year-old clubhouse.

The new building, as pictured above, will be a three level structure of steel frame and economical concrete and masonry construction and will be fire resistant throughout.

Kendall, Taylor and Company of Cambridge, architects, will design the building to meet the local requirements and fit the available site.

Included in the new facilities will be a swimming pool, which will meet A.A.U. specifications and which will provide year-round swimming facilities. The recently memorialized Davidson gymnasium in the new club will be a modern, well equipped gym, with its complementary shower rooms and locker facilities for members and also for visitors.

There will be large, well-lighted games and reading room for boys of varying age levels, social and recreational halls and vocational units including printing, woodworking, crafts shops and art and hobby rooms.

ship, the new Arlington Boys' Club will in every sense be a "community boys' club" intended in every way possible for the utilization and benefit of everyone," Chairman Saul said.

The Arlington Friends of the Drama held its January meeting at the clubhouse Sunday with the president, Carl Freyer, presiding.

Plans were discussed for the forthcoming production, "Pipe Dream," a Rodgers and Hammerstein musical. It is a dramatization of a Steinbeck story that starred Helen Traubel in the original Broadway production. The dates of the performances are Feb. 11, 12, 13, and 17, 18, 19, 20, all at 8:15.

The production is being directed by Robert Darjic and Laurence Gleason and features Clare Glennon, Al Higgins, Karol Koska, Sandy Wenner, Bob Boyajian, Ellen Sykes and many others.

"Ignorance, wishful thinking and deliberate lies are the chief sources of our prejudices" said Mark Strickland at the Arlington Woman's club meeting on Thursday.

"If we knew each other better we would get along much better, for the more we know people the more we understand them," he said.

His address "Prejudices are Funny" though serious in implication kept the audience in laughter.

Mr. Strickland who is a minister, writer, and lecturer has a weekly TV program on WMUR Channel 9, Manchester, N.H., called "Let's Face It."

Yong Soon Lee, soprano, accompanied by Reta Larsen sang beautiful selections. Miss Lee is from Korea, attended the University of Seoul, The Boston Conservatory of Music, and is currently attending the New England Conservatory.

Hostesses for the dessert hour which preceded the meeting were members of the education, music, and social committees.

Mrs. Wilkins presented, Peter Seery the certificate for the "Boy of the Month."

Den 9 conducted the opening Flag ceremony and served as Cub police. Den 9 was named the honor den because of highest percentage of attendance of both cubs and their parents.

Denner reports were read by Robert Cram and Charles Balyozian. Den 5 was winner of an umbrella relay race; highlighted by folding chairs and whistles.

Den 2 put on a western skit featuring a gold detector which finds the world's biggest "Goldbricker".

Den 5 presented a school-teacher skit with many witty and sharp answers from the pupils.

Richard Walker won the Indian wrestling championship of the pack.

Mr. Herlihy took the whole pack, in pantomime, on a lion hunt.

EDITORIAL

They're Catching Up!

Growing older and older has some compensations and whimsies!

When your editor first climbed up onto this erudite chair, he noted the engagements and marriages, a few months later, of many of his youthful proteges — through the church choir and as a Sunday school teacher.

Then, not too much later, came the announcements of births of their children, making him feel like an aged grandpappy. Shortly, his own children confirmed this.

The best part of this "ye editor" job is just coming now, however. They are all beginning to catch up!

In this week's issue we see:

— a "dad," cubmaster of Pack 000 not too long ago, is now an officer of the newly formed Junior High East P.T.A.;

— a son of a former college track star (just a few years back) is a prominent student at the High school;

— the mother of several neighborhood kids (who always needed their noses blown) is now helping to plan her A.H.S. class 25th re-union.

Yep, give 'em time and they'll catch up. But, what your editor is really waiting for: the day they pass him!

Lesson Number Two

Last week's editorial on "What About Publicity?" was intended to be a single treatise but since several Publicity Chairman have commented on it, possibly a second lesson might be sensible, even though a bit more technical.

This has to do with the first paragraph, including the art of the "lead" (the first) sentence.

The newspaper story is entirely different from a novel, an essay or article. In the novel the very last pages are saved to tell whether the hero conquered the dragon, who committed murder. The same is true of the Essay or Treatise. The first part states the problem, the main body discusses the various possible solutions, approaches or pitfalls, the end gives the author's considered ideas, suggestions, solution. Usually the author of the Essay assumes — and has the right to do so — that the reader by profession, association, etc. is automatically interested.

The Article is a bit more like the news story. Here the writer tries to demonstrate at the beginning that the reader could be or should be interested. The beginning here, therefore, is more revealing but the author is confident the reader has time — else he would not be reading articles or an editorial.

So, the prime technical factor of a good news story is, first of all, speed with the major content coming as fast as possible.

[Please, please remember we are not talking about reporting an earthquake — no, just an ordinary meeting of Citizen's Club, U.S.A. Reporting an earthquake involves no problem as to attracting attention, as to the latter — all the problems exist.]

So, the newspaper trade has a tool, consisting of five little words: *who, what, why, where, when*. These should be answered as soon as possible — not necessarily in the first or lead sentence, possibly in the first paragraph but definitely by the first column inch.

[Incidentally, most sentences should not be much longer than 20 words and the paragraph no more than 60. You've written telegrams and night letters! In other words, throw away the semi-colons, the conjunctions and modifying clauses. Make short sentences.]

Let's turn back to the trade tool. You have five questions to answer quickly with the reader's clock running!

Actually, most reports we receive from "publicity" chairmen answer first: where and when.

— Does our readership care whether the club met in Library or Legion hall; do they care whether it was at 2 or 8 p.m.? [If the meeting was called at 3 a.m. to view meteorites or a meeting on the Swan boats in the Boston Garden — yes.] So, usually "where" and "when" are the least important. For a future notice, naturally, this is more important.

— Invariably, the report starts with the "regular" monthly meeting. This answers the question "why" — but is that news? Some clubs fine members for not attending. Does this answer the "why": to avoid a fine? If the meeting was very regular, why bother to write about it? It isn't news.

— Many reports say "what" happened faithfully — just like the Secretary's report: "We met, we set, we et." Did the speaker, the officers, the committee chairman say something different or unique? Good or bad, that is the news!

— the answer to the question "who" is most hard to criticize. Needless to say a "story" that does not mention a single local name will find our wastebasket. On the other hand, mentioning all the officers of the club before that of a dignitary or well-known person is ridiculous. Also, without merit is to name all the club members — just because of the notion that "names make news". Remember, names only make news because they do or say something.

It's easy when you try! Close your eyes and ask yourself the 5 w's Think and then answer them in order of importance.

Take time to read several reports of clubs and societies in this week's paper. Pick out the best "lead".

To: Town Clerk Mahon

It's sure nice to contemplate the March election without opposition.

Your smashing victory in '59 had its effect. The boys would as soon take on Kennedy as The Girl.

That Man About Town

By MAI

Well, the hats are tossed in. So, let's go.

First of all, there may be one or possibly two withdrawals. Deadline for that is Monday at 5 p.m.

The Assessor race has more cross currents than the rapids below Niagara. First, of all a couple of people stuck a wrench in the well-oiled machine.

It should be fairly obvious now, that Mastermind got Robert Wilton to announce to take care of incumbent Leonard Wood, in case the latter changed his mind about not running. This, then, would make John Byrne Jr. a shoo-in (last year's Selectman race in reverse when Byrne and Pellegrini chopped each other to bits).

With Wood out (or blocked by Wilton) Byrne with support from Horace Homer would defeat Walsh.

When Wood did not change his mind, Wilton dutifully did not file. In the meantime, two other big guns had moved on to the scene — Flynn and Baker.

What wonderful name Baker (Arthur G.) has! The name of his uncle, Harry Baker and for years here in the real estate business, still packs a punch. (Too, another Baker is expected to be very powerful in the School Committee race.) He also lives in probably the most perfectly divided precinct. For about a decade now this political

adage has been demonstrated: he who captures Precincts 11 and 13, wins the Town. Also, Baker at the age of 42 is a veteran real estate man.

The other new big gun is Wallace Flynn. He has far-flung connections. (We have described him in previous columns.) As we see it, Flynn will hurt Byrne and Byrne will hurt Flynn. This is not to mean that these two will knock each other out. A battle between two leaders does not usually mean the 3rd place runner will sneak in to win.

And, all this time, Mr. Walsh has been working since last September!

Newest entry for School Committee is Cesare J. Florenza. Never let it be said that he lacks courage! He faces three incumbents plus these fellow challengers: one is a doctor of education and, therefore, is a recognized authority (Mary Carter); the other is a former high school teacher here and now an assistant principal in Tewksbury (Walter Russell).

However, Florenza has a record of his own. Veteran observers will recall his courageous speeches from the balcony at Town Meetings. Later, he was elected TM member, was president of the East Arlington Civic Ass'n, and was appointed by the Moderator to the Tax Study committee for the Pittsburg Plan.

TV Roll Studied

Dr. Mary K. Carter, who is a candidate for School Committee, on Jan. 27 participated in a conference held at M.I.T. on the use of television in elementary schools. Specifically discussed was the current science series on Channel 2.

The program, part of the 21" Classroom and featuring Prof. W. H. Weston of Harvard, is used by approximately 100 school systems in and around Massachusetts.

In commenting on the program, Dr. Carter stressed the fact that the students could obtain maximum benefits only if the teacher carefully prepared the class for the teacher carefully prepared telecast and then followed it with a discussion period.

On Jan. 30, Dr. Carter again participated in the Beginning Teachers conference held annually at Boston University and attended by 500 teachers this year.

Crumb Of Comfort

Local taxpayers will receive a crumb of comfort this week. Last week the Advocate reported that the pay boost offered Town employees would cost a total of \$210,000. The figure should have read \$102,000. [The fastest \$1.25 ever saved on the tax rate! — Ed.]

ENTRIES for Speed Skating meet, sponsored by Arlington Lions club on Feb. 20-21, must be in the mail by Feb. 13.

Hockey Sextet Wins Crown

Arlington's hockey team skated their way to a G.B.I. championship Saturday at the Arena, downing Medford 3-1.

The victory was doubly sweet as the Mustangs are the only team to which the Spy Ponders have lost, losing 3-0 to them earlier this year.

Downs of Medford and Shannon of Arlington both scored in the first period, and the game remained in a 1-1 tie until midway in the final stanza. Then John Morse collected one to put the locals on top. Paul Donnelly, not to be outdone, added another one, bringing his league-leading total to 13 points.

ALL THAT'S LEFT of the B&M station at Lake st. was scooped up and carried away in trucks Friday after workmen had dismantled part of it and rest was burned down Thursday. It was just one year ago that the town was offered the property, which it has since acquired by action of the Town Meeting. Because the building was felt to be a menace to children in the area it was decided to raze the structure. The excavation will be filled and the land used for other purposes.

Museum Concerts

Ancient instruments ranging in type from mediaeval to baroque will be featured in a concert of early music by the Boston Museum of Fine Arts Camerata on Tuesday evening, Feb. 9 at 8:30 in the Museum's lecture hall.

The seldom-played instruments from the world famous collection of ancient musical instruments which will be heard include the harpsichord, cabinet organ, lute, rebec, buisine, psalter, tromba marina, string drum, cymbals and triangle. The concert, the first of three in the Camerata's 1960 concert series, is entitled "Another Handful of Pleasant Delights" with music of all periods. The Museum's Leslie Lindsey Mason Collection of ancient musical instruments was assembled by Francis W. Galpin, noted British authority and writer on musical instruments and was presented to the Museum in 1917.

The second concert "Music of the Baroque and Rococo" includes the cantatas "Orpheus" by Clerambault and "Amore traditore" by Bach and will be given on March 22.

Songs and dances from English masques of the seventeenth century will be included in the third concert "The

Nearly eighty women were in attendance, thirty of whom were honored guests.

The tables were decorated in colors representing the various months of the year.

An added feature was the singing of "Happy Birthday" as hostesses placed a decorated birthday cake on each table. Mrs. George Burke was at the piano.

Following the luncheon, Mrs.

Masque "Tirsi e Clori" by Monteverdi on May 10.

Season ticket for three concerts may be obtained by mail or purchased at the door. Single-concert are available at the door only, not by mail. Special student tickets are also available at the door.

The Arlington Democratic club under the chairmanship of Frank J. Higgins will meet at 8 p.m. Thursday, Feb. 11 in the Old Town Hall.

An cordial invitation is extended to all Democrats interested in promoting good government.

Following the business meeting there will be a social hour with refreshments.

supported by the Association," Hurd declared.

Order Dog Restrained

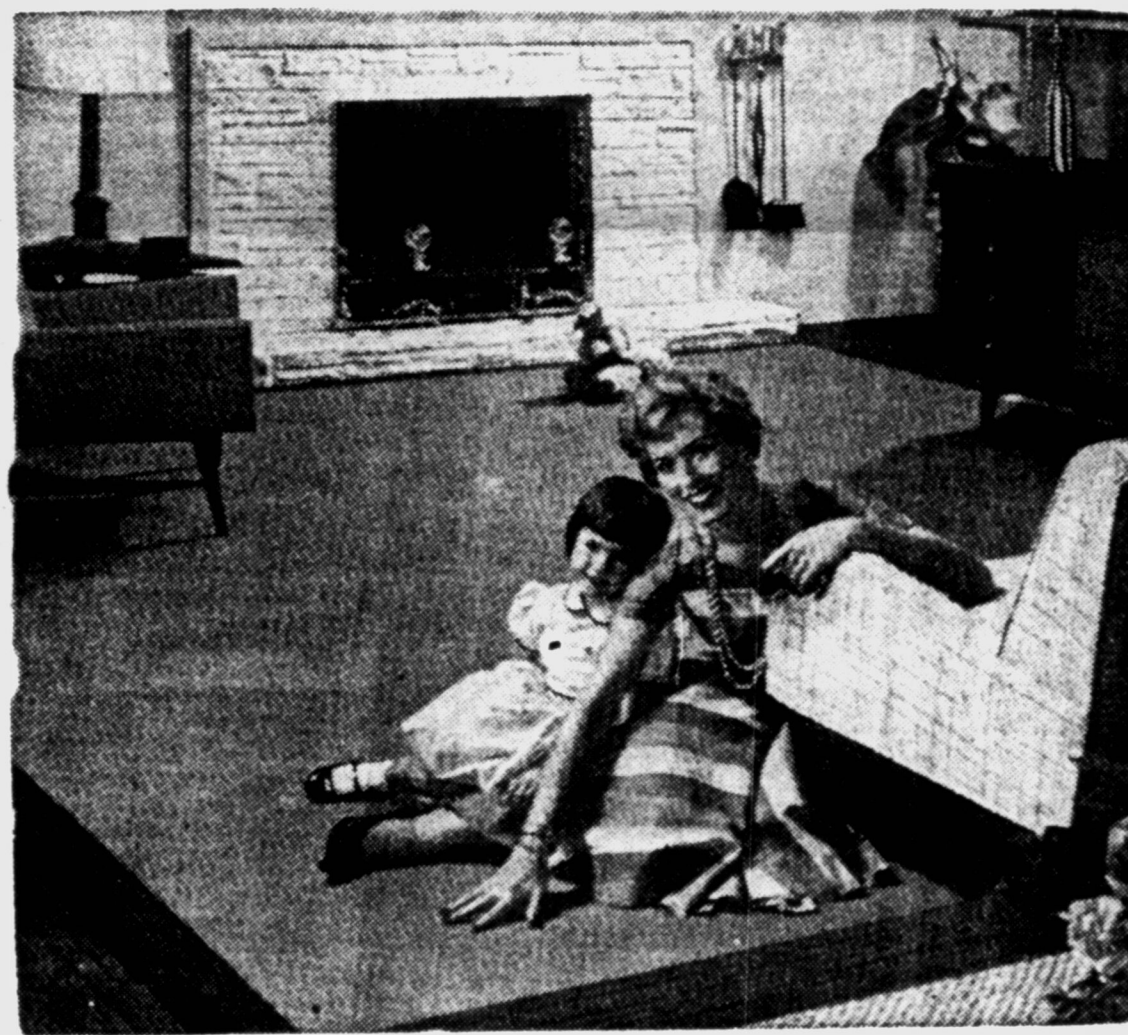

Life for one Arlington mailman should be more agreeable now that one canine on his route has been permitted to be out only on a leash.

By order of the Chief of Police and the Selectmen, the hapless boxer of 58 Cleveland st. has been given "permanent restraint" because of his "objectionable" disposition.

"hello, mummy"

"Those two words 'Hello, Mummy,' from my four-year old son nearly made me cry," says one of our customers.

"He had gone to spend the weekend at his grandmother's home in upstate New York. On Sunday morning my phone rang and I heard his little voice say, 'Hello, Mummy.' I nearly wept I missed him so. You see it was the first time I'd ever heard Robby on the phone. He just wanted to say hello,

but I'll always remember the sound of his voice."

Whenever your telephone rings, it could be someone with vital news to tell — just a friend who wants to chat — or a call like Robby's, so personal and tender that it will live in your heart forever.

So many times, in so many ways . . .
A family's best friend is the phone

Thoughts For The Week!
"I must stand with anybody
that stands right, stand with

CORNER CHATTER!

Dear Friends;
This is the first winter in
years that I have been

singled out as the "Birds
Keeper" in my neighborhood.
To tell the truth, I don't know
what to feed them. So far,
they have had a diet of dry
bread and "Wild Bird" seed.
Perhaps some of you bird
lovers will give me a hand.

The Bird Keeper

To Calorie Counter,

How is the diet doing?
From your last letter you
sound almost as discouraged
as I felt a few months back
until I started eating a bana-
na before breakfast and
again before dinner at night.
I was always hungry as a
bear and cheated on the cal-
ories too. This tip may help
you.

Top Heavy

Mothers!

This tip is not a new one
but, in my house it is a novel
one when appetites seem to

lag. We have a topsy-turvy
lunch! The children have a
lot of fun with me saying,
"Never mind Mom today.
This is not one of her better
days!" You see, I put soup
in coffee cups and they drink
it with straws! Milk in cus-
tard cups! Toast or rolls in
soup bowls! Hubby enjoys the
frolic too!

Tussy

Little Joey,

Here is a tip for those
chewy meringues. Try using
a pastry tube and they will
be more crisp. Do not put
them in an air tight con-
tainer.

Lone Star

HOUSEHOLD HINTS

A Common Blessing

Gals,
Did you ever think how
many uses cellophane tape
has? How did we ever live
without it?

Here are a few new uses,
perhaps you hadn't thought
of:

Restraining Beads. Line up
graduated beads in the order
they are to be restrung, on a
length of cellophane tape,
sticky side up. Anchor tape
at both ends. The beads will
not roll out of position.

Stop Cracked Plaster. Next
time you hammer a nail in
the plaster to hang a picture,
first apply cellophane tape
over the spot to prevent the
plaster from cracking.

Prevent Scratches. Run a
strip of tape on bottom of
knick-knacks to save your
furniture from scratches.

World of Wisdom

"My son, Kenneth, age
three, enjoys helping his
daddy fill the woodbox. One
day when he was busily en-
gaged at his task, apparently
he dropped some wood on his
feet for he held up a stick
to show me. With a very sur-
prised perplexed expression
on his face he exclaimed,
'This wood stepped on my
toes!'"

School Of Missions

At First Baptist

The third session of the
School of Missions at the
First Baptist church will fea-
ture two motion pictures.

"I'll Sing, Not Cry" is a
story of Missionary work in
a village of Angola in Africa.
The sound-track for the film
was made "on the spot" to
reproduce native music and
speech.

"None Goes His Way
Alone" bears out the truth of
Edwin Markham's poem in
missionary work in our own
country.

These pictures will be shown
on the evening of Feb. 10 fol-
lowing a pot-luck supper at
6:30 p.m.

Food-donations and reser-
vations for the supper should
be arranged with Mrs. Albert
S. Brown.

Following the films, the two
discussion groups of the
School of Missions will again
meet with Rev. Donald D.
Menzel, subject "Africa", and
with Mrs. Robert Earl
Slaughter, subject "Town
and Country".

MODEL DAIRY

The first large modern dairy in the Middle East, built by the Government of Iran at a cost of \$2,000,000, is now in full operation in Teheran. Experts from the Food and Agriculture Organization declare that the plant—for which the United Nations Children's Fund contributed equipment worth \$500,000—has wrought a complete change in the milk situation in the capital.

Prior to the opening of the dairy, in November, 1957, about 2,600 gallons of pasteurized milk were available per day in the city. Since only a part of this total was produced under controlled hygienic conditions, all milk was boiled before use.

In its first months of activity the new dairy produced about 1,300 gallons of clean, safe milk daily, but by June 1959 its output was 13,000 gallons every 24 hours, of which 6,000 are pasteurized.

It also produces 27,000 bottles of yoghurt daily, as well as 2,600 gallons of skim milk and 1,350 pounds of butter. A proportion of this volume is distributed free to children.

The results achieved in Teheran have led to proposals for similar central dairies in Meched, Isfahan, Shiraz, Tabriz and other cities. F.A.O. experts who assisted in setting up the model plant are now at work on plans for the new Government program.

TO BAN OPIUM

Nicaragua has become the thirty-fifth nation to sign the United Nations Opium Protocol, the aim of which is to limit cultivation of the poppy plant, and production and trade of opium. The document, drafted at a 1953 conference, will become operative when it has been ratified by 25 countries, three of which must be opium producing and three opium manufacturing countries.

RETURNS TO CHILE

H.M. Sapir of Washington, D. C., has returned to Chile to continue his work as a United Nations technical assistance expert, after home leave in the United States. He has been acting for the past year as an adviser to a Chilean commission which is surveying the country's transport facilities—rail, highways, ports, coastal shipping, and air. The aim is to devise a plan for coordinated utilization of all the existing facilities, and to plan new ones in areas where they are lacking.

Mr. Sapir, a graduate of Yale University, took post-graduate studies at the University of Chicago and the Universities of Berlin and Munich. He has served as an economist in several capacities with the Government of the United States and with the United Nations in Korea and Japan.

DESIGN, BUILD AUTO

Advancement made in the Egyptian part of the United Arab Republic in technical training is symbolized by the creation of the "Ramessid," the first car ever designed and built there. Dr. Herman Dietrich reported to the United Nations Educational Scientific and Cultural Organization, on his return after two years in Cairo. He was sent by the agency as an adviser on technical education. There are now about 9,000 technical graduates annually, a 100 per cent increase since 1957, Dr. Dietrich said.

FORESTS FLOURISH

Tropical forests in Indonesia constitute an impressive potential as a basis for future paper and textile industries, Professor F. Loetsch of the University of Hamburg has advised that government. He recently returned from an assignment given him by the United Nations Food and Agriculture Organization, to make recommendations on forest management in the Indonesian archipelago.

The German expert found that species of soft-wood trees—a requisite for developing a wood cellulose industry—grow with amazing rapidity in Java, Bali, Sumatra and other islands. He characterized the Albizia Falcata and the Acaia decurrens as the types of swiftest development. They reach a height of 60 to 70 feet in five years, he said—a superior rate of growth to those of most European poplar plantations.

Farnum Opposes Bill

The State Senate yesterday voted 14 to 10 in favor of a bill which would cut off the time for filing an absentee ballot for voting, so the special ballot would have to be in the local clerk's office by noon the day before election.

Senator Charles W. Hedges (R) of Quincy, a candidate for sheriff in Norfolk County, made a vain bid to kill the bill.

He argued that such legislation would deprive people of their right to vote if they became ill after noon on the Monday before election.

Senator Maurice A. Donahue (D) of Holyoke, majority leader, countered that there was no intention to remove voting rights, but said that there was need for a deadline to establish procedures.

When Republicans said a man who broke his leg the day before election could lose his right to vote, Senator William C. Madden (D) of Lexington commented that "If a man becomes so ill that he is hospitalized the day before an election, his primary interest will not be in voting."

On the question of approving the bill to close off absentee voting the Monday before election, voting "no" was Senator Farnum.

ARMORED IN GERMANY

Army Sgt. Joseph A. Davie Jr., is participating in a six-week field training exercise with the 3d Armored Division in Grafenwohr, Germany. The exercise is scheduled to be concluded Feb. 10.

The 21-year-old soldier, whose parents live at 134 Lake st., Arlington, Mass., attended Arlington High school and was employed by the Superior Tree Service before entering the Army.

Fashionably Yours

By

Daisy Mason

The children's department at Mason's would like to announce the addition of a large selection of beautiful Communion dresses, and Communion suits for the boys. Once again, Mason's is offering convenience, variety, and quality to our customers, under one shopping roof.

Many of you are familiar with the name of Helen Lee, famous children's dress designer. We are now, for Easter and spring, able to offer to you, many choice dresses, designed by Miss Lee for Alyssa. The shirtwaist dress will be very popular this season. A tremendous fashion note for spring, will be the Provincial prints, in a variety of fabrics. And of course, Mason's selection of dressy clothes for Easter is notably extensive.

Especially appealing to the little girls, is the Shirley Temple dress line, by Cinderella. These magic names combine to produce sheer loveliness of fabrics and design, so well known to the quality conscious buyer.

In our children's hat department, you will be able to select for your child just the right style and fabric hat to coordinate with her new Easter outfit. Straw hats are making fashion news for spring, in natural, red and navy, and we will have many, many styles, both trimmed and untrimmed from which to choose.

Herb Mason and I, have selected three matching tweed sport jackets, flannel pants, and white button-down oxford cloth shirts for our three boys. Their dress shoes this spring, will be smart, black three eye-let oxfords. The selection of sport jackets and co-ordinated pants is excellent, and from the variety of colors, fabrics, and styles shown, you will be able to select the type that appeals to you.

Slack - White

The engagement of Rosa-mond Vannevar Slack to William Lawton White, son of Mr. and Mrs. William Francis White of Arlington, is announced by her parent's Mr. and Mrs. Henry Allen Slack also of Arlington.

Mr. White was graduated from Arlington High School and is a candidate for a degree in the graduating class of Tufts University, School of Engineering. He is a member of Alpha Tau Omega fraternity.

HERE'S THE SECRET OF THE PEDIC'S
BACK BRACING SUPPORT

THIS **NOT THIS**

This Genuine Slumberland PEDIC has not one but TWO Resilient Miracle pads built right into it. They refuse to sag and actually help the coils to react instantly to your body's weight.

Ordinary mattresses often bog down under body weight and leave your back in a "hammocky" sag as weak coils sink down.

Jane Day — Slumberland's TV Weather Gal S.

**Never Before Perhaps Never
Again An Offer Like This!**

Would you believe it? A Genuine PEDIC Mattress priced so low! You've seen other brands for much, much more, but now Slumberland brings you one of the finest of all at an amazingly low price. Slumberland's exclusive BACKBRACING SUPPORT, firm for the sleep of health you need, comes from crush-proof, DOUBLE-CUSHIONED Rubberized Miracle Pads that just can't sag . . . plus HEAVY DUTY electronically-tempered steel coils.

Other features include: Buttonless Top; Breathing Air Vents; Sag-Proof Border; Turning Handles and Handsome Woven-Striped Ticking that's practically wear-proof. Doctors say that too soft or too hard a mattress can result in backache problems . . . The happy medium is the "just right firmness" of the Pedic — the year's best mattress buy . . . so get out of that "hammock like" mattress and get the miracle of sweet refreshing rest that only a Genuine Slumberland Pedic can give.

Your Car Deserves The Very Best

Time To Think About Clean-Up

With "Ground Hog Day",
past, Spring seems only just
around the corner and in fact
is a scant 6 weeks away. Of
course, Spring means many
things, but to the home owner
it means time for a good
clean up around the house.
There is not time like the
present to make plans for this
paint-up, clean-up, fix-up per-
iod. Why bother with all the
fuss and muss of mixing
paints, climbing ladders, etc.,
Lee Strickland, who does
both interior and exterior
painting, is a professional
painter in every sense of the
word.

Between the first snow fall,
and the first sign of Spring
there's plenty of rugged win-
ter driving. In most cases
that winter check-up some
months ago does not provide
complete protection until the
first buds begin popping
above ground.

One sure way to assure
complete protection through-
out the long winter months is
to bring your car to a reliable
service station every 30 days
and give your car a good
mid-winter check-up.

Overall readiness is the
theme at Mark and Chuck
Murdock's Esso Station, lo-
cated on Mass. ave., near
Arlington Heights. This readi-
ness is your guarantee of
fast, dependable service.

Grease and oil changes,
battery checks, etc. should be
done every 30 days during the
winter months, while a mid-
winter tune-up might be
necessary to prevent more
serious repairs during Spring.

This service is only a part
of what you will receive at
Murdock's. You'll also find a
complete selection of Con-
naire retreads and new Atlas
tires in addition to the many
other famous Esso products.

Don't Trade, See Precision Motors

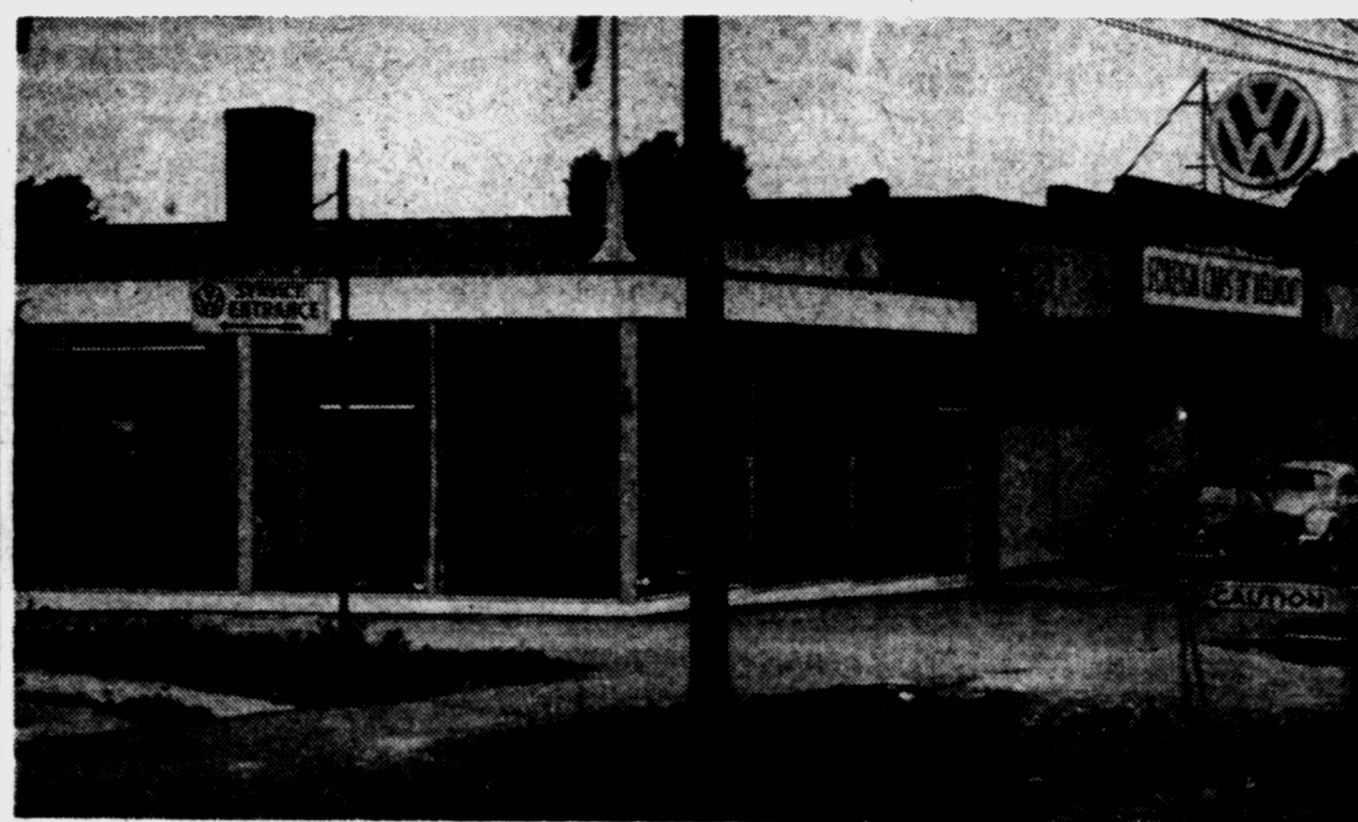

In many instances, the dif-
ference between the purchase
of a new car or the contin-
ued use of the present family
car is simply a visit to Pre-
cision Motor Rebuilders, the
largest company of its type
in the East.

Precision can rebuild just
about any type of motor, in-
cluding industrial and farm
equipment, and they are ac-
knowledgeed to be among the
top rebuilders in the country.
Precision can rebuild an en-
gine like new thus adding
many years to the life of the
family car. In addition, the
firm rebuilds all types of
automatic transmissions.

Owned and operated by Al
and Joe Ferreira, Precision
now maintains a staff of 95
and supports three additional
offices in Springfield, Somer-
ville, and Pawtucket, R.I.
Headquarters for the chain
is located at 36 Massachusetts
ave., Arlington.

A large staff of trained ex-
perts and modern, efficient
equipment means fast, de-
pendable service.

Foreign Cars Sees Good Demand

Despite the introduction of
several new small cars by
U.S. manufacturers this year,
Volkswagen perhaps remains
the most popular small car
to be sold in this country.
Demands still seems to ex-
ceed supply.
Probably one of the most
widely known firms in this

area dealing in foreign cars
and more specifically the
Volkswagen is Foreign Cars
of Belmont Inc.

Foreign Cars, owned and
operated by Messrs. Kendall
and Rennie, not only sells
Volkswagens throughout the
area, but their expert service
department keeps all Volks-

wagens in top running order.
There's no problem of wait-
ing for parts at Foreign Cars,
because the firm keeps a well
stocked parts department.

Located just over the town
line on Trapelo road, Foreign
Cars is the place to go for
best in sales and service.

ANGRY TORRENTS cascaded from the culvert under Mill st.
Thursday as rain coupled with melting snow poured tons of water
into the normally quiet stream. Water level came within inches of
overflowing this section between Mill and Mystic streets.

What a great sports week-
end the past one was for
A.H.S.!

It began on Friday night,

J.V. also won 43-24.

On Saturday, the hockey
team, for the 2nd year in a
row, became G.B.I. Champs.
By defeating Medford, 3-1,
they clinched first place. Paul

goal. Congratulations for a
job well done, team!

That same day, our track
team downed North Quincy,
42-35.
